## Video tips:

1. have the person videoing stand 3-5m from "C" in a straight line with "A". This is the normal judging position your tests are judged from.
2. use a tripod to hold the videoing device to prevent hand shake or dropping of device
3. have the device holder zoom in a little when horse & rider are in the far half of the arena. Zoom out when they are close to the device. Do not zoom in entirely on horse & rider but have horse & rider in centre of screen shot. Try to give the judge the best view of the horse & rider throughout the test.
4. turn the sound down so any wind noise is minimised or talking from supporters & viewers can't be heard on the video.
5. ensure the light on the arena is consistent. Inconsistent lighting & interfere with the video causing it to adjust itself which doesn't help the flow of the video.
6. These tips are to help you make the most of your video. A judge can only judge what she can see so your video needs to be clear & still.
